HUM111 Pakistan Studies

Assignment # 3 (Project)

Spring 2024

---

## Semester Project

Assignment # 3 is in the form of a semester project. This document presents the details and description for the project.

### Main Topic

The main topic for the project is Current **Social, Economic and Political Challenges related to Industrial Sector of Pakistan**. You are to select a specific topic relevant to this main topic. Some sample topics are mentioned in this document.

### Introduction

For the semester project, you are required to work in a group of 3 to 5 members and pick a topic relevant to the main topic of “**Current Social, Economic and Political Challenges related to Industrial sector of Pakistan**”. After approval of your topic by your moderator, you will form a report on the specific challenge you have chosen and propose solutions for the challenge.

### Marks

**Total:** 50 Marks

**CLO:** HUM111\_CLO2: Share the importance, working, issues and solutions of agricultural sector and industrial sector. (A3-PLO7)

**Justification of CLO:** **Acknowledge** the current challenges faced by the Industrial sector of Pakistan and **describe** possible solutions for those challenges.

# How to do the Project

## Step 1: Make Group and Collect Information

This report is a group assignment, make group of 6-8 students and share the names of group members with your moderator (groups are mandatory, individual project will not be accepted).

Select a specific challenge faced by Industrial Sector of Pakistan. Your project cannot be on the main topic, it has to be a particular and current challenge faced by Industrial Sector in any part of Pakistan. You are welcome to choose a challenge yourself as well.

Whether you choose a topic from the given list or one of your own, you will need to get your topic **approved by your moderator** before you start.

### Some Sample Topics

The following is a list of sample topics you may take for your project.

- Political and industrial growth regimes
- Production of specialized goods and its action plan/strategy
- Evolution of Industries since the creation of Pakistan.
- An Appraisal of Industrial progress of Pakistan.
- Current Industrial problems/challenges and solutions for Pakistan.
- Importance of public and private industrial partnership in Pakistan.
- Globalization of Industrial products for the growth of Pakistan economy.
- Reforms to revive Industrial sector due to shortage of electricity or power crises in Pakistan.

## Step 2: Collect Information and Write the Report

After your topic has been approved, you will then collect information regarding the topic from valid sources and form a report on your findings.

It is important that you write it in your own words and not plagiarize or copy from anywhere. For information on plagiarism and how to avoid it, consult your moderator.

The report is worth 50 marks, therefore put proper effort into it and work on it like a project and not just an assignment and be sure to follow the deadline.

Your report may be structured in the following way.

### Introduction

Briefly describe the project along with the topic. Also mention how the topic is related to the main topic.

### Findings and Discussion

Describe the challenge faced by Industrial Sector in detail, including where it is being faced and in general how many of the industries are facing it with facts and figures. You should include accurate information and the source of the findings. (All sources will be listed at the end.)

### Conclusion and Recommendations

Propose solutions to the challenge and describe how it should be implemented.

### References

Use APA style to reference the sources you have used to collect and include information for your report.

### Step 3: Proofread and Submit your Report

Once you are done with your report and have proofread everything. If possible, check for plagiarism, just to be sure that you are not at risk of losing marks due to it.

When you think, the report is ready for submission, then upload the report on CU Online as Assignment # 3, before the Deadline.

**Note:** If there are any further queries about anything related to the project, please contact your moderator.

*Good Luck!*
